

Oldsmobile
Light
Eight

PRICE \$1195.00

F. O. B. Lansing

Every Delightful Anticipation of Eight-Cylinder Performance Is Realized in the OLDSMOBILE EIGHT—

Maximum range of action on high-gear, elastic pick-up, a new sense of power, a new freedom from vibration. And in addition, beauty of design and elegance of appointment undreamed of at the price.

SMOOTHNESS—

Vibration is minimized in the Oldsmobile Eight. To the liquid power flow of eight cylinders is added the rigidity of a short, massive crankshaft and the light, effortless play of aluminum pistons. Balanced connecting rods provide a stability in the motor that is inherent.

SIMPLICITY—

Open the hood of the Oldsmobile Eight and you will be surprised at the simplicity and compactness of the motor—at the absence of complex attachments. Careful design has eliminated many parts. The simple, practical construction insures freedom from trouble.

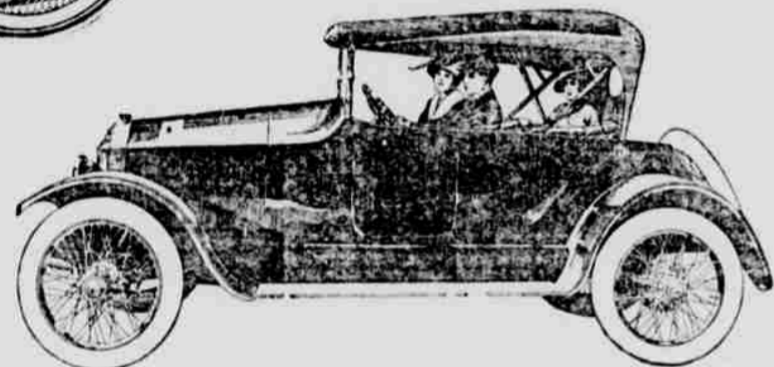

LIGHT-WEIGHT—

Excess pounds are expensive pounds—always. In the Oldsmobile Eight correct design and the careful selection of materials have eliminated all superfluous weight. For its size, power and riding comfort, it is exceptionally light and surprisingly economical. The gasoline average is from 12 to 14 miles per gallon.

MARMON 34

A Scientifically Lightweight Car

In road performance, riding comfort, and ease of handling, this car easily takes the top place in motordom. We are ready to prove it with a wonderful demonstration. There's a nimble, sure-footed fleetness about the new Marmon that fascinates all who drive it.

There's a new sensation in holding the wheel and feeling this car respond. It is big and luxurious, yet with its lightweight and swiftness, it holds the road better than the heaviest car on the market.

Its power, its life, its quick accelerations, its speed and its easy graceful motion, mark a new era in motoring. The Marmon has only four grease cups, and all squeaks and rattles have been eliminated. Its average is over thirteen miles to the gallon of gasoline. Equipped with gas, oil, water, extra tire and wheel, it only weighs 3,540 pounds, yet has a wheelbase of 136 inches.

PRICES—Five-Passenger Model \$2900—Three, Four and Seven-Passenger Models \$2950
